**SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT**  
**(37 CFR §1.97)**

Dear Sir:

Pursuant to the duty of disclosure set forth at 37 CFR §1.56 and the requirements for filing an Information Disclosure Statement set forth at 37 CFR §§1.97-1.98, enclosed is Form PTO/SB/08a (hereinafter "the Form") with a list of all items being submitted for consideration by the Office. A legible copy of each item listed in the Form that is not a U.S. patent or a published U.S. patent application, and not identified as being cumulative, is enclosed.

The Background of the Invention portion of the application indicates that SIG Combibloc GmbH & Co KG (hereinafter "SIG") is a manufacturer of post-applied fitments and provides the URL for SIG. The reference identified in the Form is a page that was obtained from the WayBackMachine archive and identified in the archive as being a page from the SIG web-site as of July 2003, which is earlier than the priority date of November 14, 2003.

The Background of the Invention portion of the application indicates that Bericap GmbH & Co (hereinafter "Bericap") is a manufacturer of post-applied fitments and provides the URL for Bericap. A copy of whatever page of the Bericap web-site might have disclosed post-applied fitments prior to the priority date of November 14, 2003, could not be located. The reference identified in the Form is a page that was recently obtained from the Bericap web-site. The applicant

believes that the Bericap reference shows the type of post-applied fitment that exhibits a problem which the invention set forth in the current application is meant to address.

The disclosure of the documents identified on the Form is not to be construed as an admission that any of the documents, alone or in any combination, is considered to be material to patentability as defined in 37 CFR §1.56(b). Moreover, the disclosure of these documents is not to be construed as an admission that any of the documents are prior art as to the above-identified application.

Respectfully submitted,

HOLLAND & HART LLP
